Re: Special Dreams Farm

To Whom it May Concern:

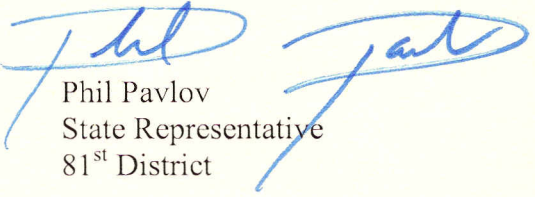

It is an honor and a privilege to offer my support of Special Dreams Farm.

In 2004, Larry and Mary Collette recognized the need for gainful and meaningful employment for our local special needs community. They envisioned a place where individuals with developmental disabilities could find a sense of self, enjoy social interaction, and serve their community. Four years later, through perseverance and dedication Special Dreams Farm is fulfilling that mission.

In early 2009 I was invited to tour Special Dreams Farm and meet with the 'Dream Team' to discuss their future plans. This team is highly motivated and organized and I have no doubts that they will meet and exceed every goal they have set for themselves. This team is also devoted to providing a caring community for their farmers and families. This combination of compassion and drive will ensure success for Special Dreams Farm and bring autonomy, self-reliance, and self-worth to individuals in the special needs community.

I look forward to supporting this outstanding organization in any way possible as they work toward achieving and expanding their goals.

Sincerely,

Phil Pavlov
